

Anteo Group Exceeds Expectations for Acterna

INDUSTRY AND CLIENT PROFILE

Acterna is the world's largest provider of communications test solutions for telecommunications and cable network operators.

PROJECT

The client engaged Anteo Group to provide a mid-level Java Developer on a contract basis for the development of a new web-based reporting system.

CHALLENGES

While Anteo Group provided a stellar consultant for the project, the consultant left Acterna for personal reasons. The project was near completion, so the consultant had to be replaced seamlessly.

VALUE AND RESULTS

Anteo Group immediately responded and provided a consultant with a matching skill-set at the same rate within a day. Anteo Group then went the extra mile by providing un-billable time for the overlap of the consultants.

The end result? The Java web development project completed successfully and on time.
