

SENIOR JAVA CONSULTANT

ADP

Anteo Group has looked out for my work pipeline since day 1 and that is rare in the churn that is the contract consulting business. What makes Anteo Group successful is that they take the time to listen and they think of me more of a person rather than a contractor.

SENIOR QUALITY ASSURANCE ANALYST

Global Payments

What sets Anteo Group apart is the personal attention received with the initial employment process. My recruiter went beyond the norm by hand delivering my payroll to me at the client site and taking me to lunch.

SENIOR CONSULTANT

Chugach Electric

Thank you very much. You have really gone the extra mile for me on this engagement. I have never been so satisfied with my consulting company before. I am confident, even being 5000 miles away, that whatever I need to get the job done. You will be there. Thanks again.

SENIOR SOFTWARE ENGINEER

Macquarium

After working several years as a fulltime contractor through several staffing agencies, Anteo presented me with a short-term contract with one of their clients. Apprehensive in taking on a new contract with a relatively new staffing firm, I decided to take the chance. Shortly after taking on the contract, I realized that Anteo is one of those few companies that blends integrity with relationships.

SENIOR TECHNICAL ARCHITECT

CNN

I have done independent consulting work for this company for two years now, and I am glad to see that "Good guys can finish first." This company cares equally and genuinely about its customers and its staffing recruits. This is one of the few staffing companies I have ever worked with that realizes that I (the consultant) am as important to their business as the customer. Their approach is making a difference. This company is going places and taking the market by storm. For their fresh and honest approach to the people side of the equation.

SENIOR SOFTWARE ENGINEER

Connecture

Anteo Group is founded and managed by people that have been in the IT Staffing Industry for years. With the direction provided by such people, they have captured the heart of the IT consultant's value and have developed something more than just another IT Staffing Company. I am proud to be part of the Anteo Group team.

SENIOR JAVA ENGINEER

ADP

I work as a Senior Consultant for Anteo Group and my interaction with Anteo Group has been nothing less than excellent. I appreciate the positive attitude of the staff at Anteo Group. I come to know the Anteo Group staff as very responsive, fully committed and reliable. I won't be surprised to see this business grow even faster in the near future.
